# EDEN Initial Program

## The Buenavista old Mine Workings

In early May 2021, Centenario Gold initiated a First Phase exploration program that included regional reconnaissance, rock sampling, and detailed mapping across the main prospect showings, followed by a soil sampling and geophysical survey over the 'Buenavista' prospect's mineralized corridor. During this first phase, Centenario collected and received geochemical assay results for 260 rock samples, completed semi-detailed mapping over a 2.8 km portion of the 'Buenavista' prospect's mineralized corridor and concluded an IP/Resistivity geophysical survey and soil sampling program over the 'Buenavista' and across the 'La Provedora' prospect to the east. The regional mapping and rock sampling have extended the 'Buenavista' mineralized vein system for more than 1.2km N-NE and 1.6km S-SE of the old mine workings.

## The EDEN Property

On March 24th 2021, Durango Gold Corp S.A de C.V., a 100%-owned Mexican subsidiary of Centenario Gold Corp. (Canada), signed an Option Agreement to acquire the mineral rights to the Eden Au-Ag property located on the northern boundary of Prime Mining's Los Reyes project in the southeastern part of the state of Sinaloa, Mexico. Prime Mining announced a new resource on May 2, 2023 with a measured and indicated resource of over **1,400,000 oz of Au Eq.** and an inferred resources of over **730,000 oz of Au Eq.** The Eden Project consists of two adjoining mineral claims totalling 2,489 hectares in size, hosting a series of high-grade N to NE trending, epithermal Au-Ag vein structures, five known to date. The Los Reyes project's northern claim boundary coincides with Eden's southern claim boundary.

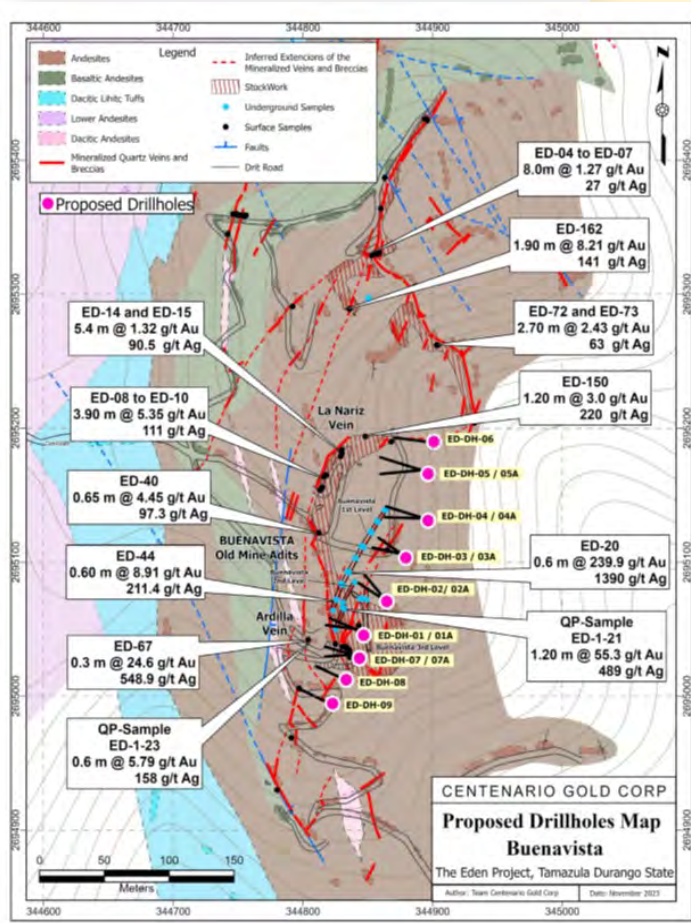

## Location & Access

The Eden Property is located in southeastern Sinaloa and western Durango States, Mexico, in the southwestern foothills of the Sierra Madre Occidental. The Property is centered 37 km E-SE of Cosala, a small town of about 17,000, located approx. 160 km north of Mazatlán and 160 km southeast of Culiacan, the capital of Sinaloa State.

Sample No.	Prospect	Collected on:	Width (m)	Au (g/t)	Ag (g/t)

## EDEN Mineralization Style at Buenavista

The Au & Ag mineralization found at Eden, like that at Prime Mining's Guadalupe de Los Reyes, occurs in a series of quartz rich vein-breccia-stockwork structures. Host rocks are coffee-colored andesite tuffs, ash-tuff sand agglomerates. The mineralization at Buenavista is hosted in a high-grade core zone (vein and breccias) accompanied by a 5 to 10 meter wide zone of quartz stockworks sitting on the hanging-wall.

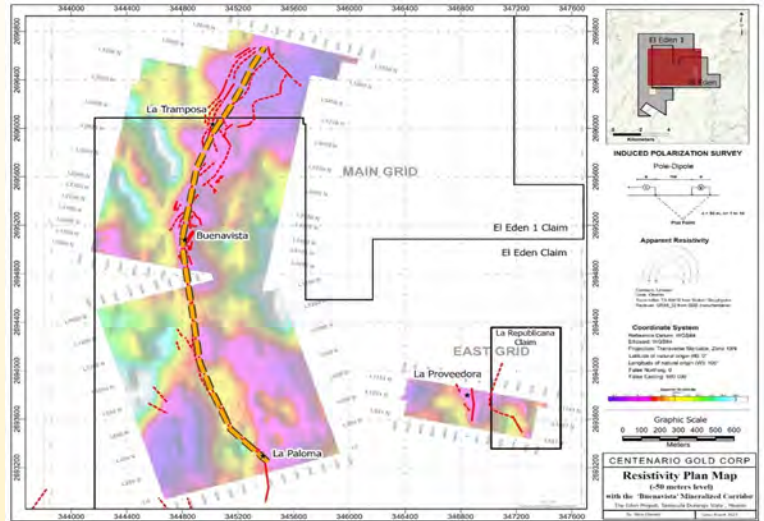

## Phase 2 Work Program

### Soil Sampling & Geophysical Program

The soil sampling program was designed to sample the areas covered by the 23 lines, 1700 meters long on the 'Buenavista' grid and the 3 line, 1500 meters long on the 'La Providora' grid.

The geophysical survey covered the same line grids as the soil sampling programs at both the 'Buenavista' and 'La Providora' prospects. The Geophysical method used was an IP (Induced Polarization) and Resistivity survey using a pole-dipole configuration, with 10 stations spread and 50 meters spacing. This configuration allows for a depth penetration of between 250meters and 300 meters.

### Propose 2023 Drill Program

The Company has planned the first phase drill program on El Eden to begin November of 2023.

1st Phase Drilling Program; ~10 holes, total 1,500 m

2nd Phase Drilling Program; ~22 holes, total 5,500 m

## SHARE STRUCTURE

### Issued and Outstanding

<b>After merger and Financing:</b>	<b>41,499,156</b>
<b>Warrants</b>	<b>7,120,826</b>
<b>Agent Warrants</b>	<b>1,184,986</b>
<b>Options</b>	<b><u>3,700,000</u></b>
<b>Fully Diluted:</b>	<b><u>53,504,968</u></b>
<b>Escrowed for 36 months</b>	<b>11,079,166</b>
<b>Escrowed for 18 months</b>	<b>2,000,000</b>

### MAJOR SHAREHOLDERS

## BOARD & MANAGEMENT

<b>Douglas Fulcher, President &amp; Director Audit Committee</b>	Doug has over 45 years experience in mining exploration and project management, he also has over twenty years experience as President, CEO of publicly trading junior resource companies such as Abacus Mining's – Ajax deposit and Maritime Resources – Hammerdown deposit.
<b>Alain Charest, CEO, Director VP Exploration</b>	Alain is a geological engineer with more than 35 years in major and junior company exploration worldwide. He spent the past 27 year in Mexico exploring and developing mining operations. For more than 12 years Alain acted as VP Exploration for Francisco Gold Corp. and Chesapeake Gold Corp both companies operating in Mexico.
<b>Jonathan Younie, CFO</b>	Jonathan has more than 20 years of experience in the accounting field and corporate and regulatory operations. He has been involved and responsible for taking a number of companies through to listing on both the TSX Venture Exchange and the CSE.
<b>Pablo Mendez Alvidrez, Director, Mexican Legal Counsel Audit Committee</b>	Pablo Méndez joined legal firm Ec Rubio in October 2004 and became partner in March 2010. In 2007 he opened the Mining Area of the firm and has been its Director since. In 2017 he was appointed Managing Director of the Chihuahua office., From 2002 to 2004, he worked for the Ministry of Foreign Affairs at the Consulate of Mexico in Albuquerque, New Mexico, U.S.. His areas of expertise are civil, commercial and banking litigation, mining, international affairs, amparo and immigration.
<b>Kevin Milledge, Director Audit Committee</b>	Mr. Milledge has over 45 years' experience as a businessman and entrepreneur in the mineral exploration field. Mr. Milledge is president of Pamicon Developments Ltd which is a full-service geological consulting firm with global experience. He has held management and executive positions and has extensive experience in project planning, development, and budgeting. Kevin has served on the boards and committees of several
<b>Steve McGuire, Corporate Develop- ment</b>	Steve is a Venture Capitalist with over 25 years of experience in the public and private markets. During his career, he has helped provide a strong focus on corporate and shareholder communications for numerous public companies. Steve has been instrumental during his career in securing funding in excess of \$40 million.
<b>Almendra Lechuga, Operations Manager</b>	Almendra has over 20 years of experience in the mining/resource industries in
